

500,000 SOLD.

Territorial Bonds Seem to be in Demand.

A Cincinnati Firm, the Lucky Purchasers at an Advance of more than 101.

The territorial loan commission yesterday sold \$500,000 of the territorial 5 per cent bonds to Seasongood and Meyer of Cincinnati. The bonds were sold at 101 or rather more as the amount received is \$5,276 more than the face of the bonds.

Representatives of a Chicago and a Denver firm were also before the board, one of whom offered to take the bonds at par.

Mr. Julius Reis who represents Seasongood and Meyer, says that his firm is glad to obtain the bonds at the price paid and regard them as among the most valuable securities on the market. He also said, what must bring a flush of pride to the face of Arizonians, that the credit of the territory is higher than that of any other in the United States. The firm of Seasongood and Meyer has been in business in Cincinnati more than 45 years and is regarded as one of the most conservative in the country, a circumstance which must lend additional value to the securities.

It was not intended at this time to make a sale of the bonds as it was supposed that the \$1,500,000 recently disposed of would meet the immediate requirements of the territory, but so many more old securities have been offered than was anticipated that the commission decided to place a half million more on the market.

The commission is to be felicitated upon the work it has performed and given praise for the thousands it has saved the territory.

Probably not a man in the territory would have raised objection a year ago to the sale of the bonds at 95. Also the argument introduced before the senate committee that Arizona's poverty was a bar to her admission has been loudly controverted by the easy disposal of her low interest bearing bonds.

The City Council.

The council met last night in regular monthly session. Beside the transaction of routine business two ordinances were presented. One provided for giving a franchise to the Phoenix Electric light company which proposes to enlarge its plant. The franchise under which it is working is still in force, but a recent change in the company has made a re-issue of the franchise desirable. The other was an ordinance granting an electric light franchise to J. J. Gardiner. Both were referred to the ordinance committee. The ditch on Seventh avenue was ordered removed to the side of the street.

To the Editor of THE REPUBLICAN.

Sir—Our legislative solons are still in session and can you not in the interest of morality raise your powerful voice and request them to pay a visit to the court house and see for themselves the scandalous manner in which the two members of Tempe's demi monde are confined there. They will see them laced each morning in the jury room, allowed to roam at will through the corridors and flaunt their soiled feathers in the faces of their virtuous sisters, as they come and go to the office of the superintendent of education. Let the legislature make some provision for the care of female prisoners. A Witness.

advanced to its third reading after the defeat of a motion to indefinitely postpone its consideration.

House bill No. 124, by Mr. Field, providing for the employment of convicts on roads, was unfavorably reported upon, became the subject of a bitter fight at both morning and afternoon sessions, and was laid over for further consideration.

A message was received from the governor announcing his approval of various measures and his disapproval of house bill No. 74. Consideration of the message was postponed until this morning.

The substitute for council bill No. 36, by Mr. Smith, providing for suitable buildings and for the better maintenance of the territorial Normal school, was passed.

The substitute for council bill No. 35 by Mr. Edwards to encourage the construction of railroads by exemption from taxation for a period of twenty years of all roads whose construction shall be begun within a period of one year after the passage of the bill. The substitute reduces the period of exemption to ten years and provides that the work of construction shall be continuous at a rate of not less than 20 miles per year until it shall be completed. In this form it was passed. Messrs. Brewer, Day, Skinner and Southwick voting in the negative. A motion by Mr. Hunt to reconsider was lost.

The next measure was one of supreme interest which had been slumbering in the bosom of the committee on counties and county boundaries since the third day of the session. It was house bill No. 16, by Mr. Mahan, to create the new county of Santa Cruz. The bill was amended yesterday by the striking out of that feature providing for an election in the new county on the second Tuesday of May to select county officers and to choose the place for the county seat. The bill names Nogales for the county seat pending the election and the governor is empowered to appoint officers who under the amendments will hold office until the regular election. Notwithstanding the opposition it was apparent that the bill was strong enough to pass if it could only be put upon its passage. By skillful filibustering this was prevented and it was considered engrossed and advanced to its third reading.

Mr. Field's bill, to employ convicts on public roads, was again taken up and the fight began in the forenoon was continued to the defeat of the measure.

On account of the accumulation of committee reports and new bills it was decided to hold a night session which was however cut short by the unexpected and unannounced celebration of the nuptials of Judge Reilly, who notwithstanding the impending event had been all day at his desk looking deceptively bland.
